

Tata Motors redefines the mid-SUV category with India's first SUV Coupé Reveals the Curvv

Mumbai. Defining a new era in SUV design, Tata Motors, India's leading automotive manufacturer, today unveiled the Tata Curvv ICE and EV. Born of powerful philosophy, form and function, the Curvv is India's first SUV Coupé. Exhibiting the new-age SUV typology, the Curvv artfully blends the toughness and practicality of an SUV with the elegance and sporty silhouette of a coupé. Launching on 7th August, the all-new Curvv will follow Tata Motors' strong multi-powertrain strategy and will be first available in its EV version which will soon be followed by its ICE counterpart.

Commenting on the unveil, Mr. Shailesh Chandra, Managing Director, Tata Motors Passenger Vehicles Ltd., and Tata Passenger Electric Mobility Ltd., said, "Tata Motors has pioneered the Indian SUV arena. What's more is that we have repeatedly disrupted the category

through innovative designs that deliver great road presence as well as enhanced functionality. The original Sierra, Safari, Nexon, Punch and Harrier are testament to this design led market leadership in SUVs. Taking this legacy forward and to further strengthen our SUV portfolio, we have once again broken the clutter in the effervescent and aspirational mid SUV category by introducing the Tata Curvv - India's first SUV Coupé - a disruptive design which democratizes the Coupé body style in the premium categories, providing best in segment performance and never before seen practicality. Further, Curvv is at the forefront of our multi-powertrain strategy, with options across Petrol, Diesel and Electric powertrains. With the Curvv we will address a wide variety of needs of the mid SUV customers, providing them with a fresh and delightfully designed product com-

plimented by premium performance." The Curvv is a perfect blend of stunning design that captivates, practicality that empowers, and performance that exhilarates. The Curvv's SUV coupé body style, in contrast to the conventional boxy design that is common in the mid-SUV market, carries over the strong aerodynamic theme demonstrated in the concept show car, highlighting its strong character to the front and carrying it boldly through the vehicle. The raised ride height, tough cladding, and dynamic proportions contribute to its appeal. The Curvv's sharply sloping roofline allows it to efficiently slice through wind resistance, while its large wheels, high approach and departure angle, and increased ground clearance give it a planted and balanced stance. The SUV coupé will debut in two new color shades: Virtual Sunrise in the Curvv.ev and Gold Essence in the Curvv.ICE.

Samsung Launches Galaxy Watch7, Watch Ultra, Buds3 Series in India

GURUGRAM, Samsung, India's largest consumer electronics brand, has announced exciting offers for consumers pre-ordering its new Galaxy Buds3, Galaxy Buds3 Pro, Galaxy Watch7 and Galaxy Watch Ultra smartwatches. Galaxy Watch7 and Galaxy Watch Ultra expand the power of Galaxy AI to more people through wearables designed to provide end-to-end wellness experiences for everyone.

Galaxy Watch Ultra - the newest and most powerful addition to the Galaxy Watch portfolio - is designed for enhanced fitness experiences for next level achievements with ultimate intelligence and capabilities.

The Watch Ultra gets a new cushion design to enhance protection and visual completeness. It comes with Titanium Grade 4 frame and 10ATM water resistance and can operate

at a wider range of altitudes for advanced fitness experiences like swimming in the ocean to cycling in extreme environments.

With a newly added Quick Button, you can instantly initiate and control workouts and map other functions to suit your needs. In addition, you can activate an Emergency Siren for safety. Post-workout, check stats at a glance with dedicated watch faces for Galaxy Watch Ultra. With a peak brightness of 3,000 nits, Galaxy Watch Ultra also ensures readability even in bright sunlight. For peace of mind during longer adventures, Galaxy Watch Ultra has the longest battery life within the Galaxy Watch line-up, offering up to 100 hours in Power Saving and 48 hours in Exercise Power Saving. Galaxy Watch Ultra will be available in a 47mm size in Titanium Gray, Titanium White and

Titanium Silver. Galaxy Watch Ultra comes with a 3nm chipset. With Galaxy Watch7, you can accurately track over 100 workouts and build routines by combining various exercises with Workout Routine to achieve your goals. Receive a complete body and fitness snapshot with Body Composition for a comprehensive understanding of your body. In addition to the new advanced Galaxy AI algorithm for sleep analysis and get a deeper understanding of your heart health with Electrocardiogram (ECG) and Blood Pressure (BP) monitoring.

Customers who pre book the Galaxy Watch7 will get multi-bank cashback worth INR 8000 or upgrade bonus worth INR 8000, while customers who pre book the Galaxy Watch Ultra will get multi-bank cashback worth INR 10000 or upgrade bonus worth INR 10000.

Business Brief III

Sensex, Nifty trade lower on weak global cues

Mumbai, July 19 (IANS) Indian equity indices opened in the red on Friday following weak global cues from Asian peers. At 9:45 a.m., Sensex was at 81,196, down 146 points or 0.18 per cent and Nifty was down 75 points or 0.34 per cent, at 24,716. The broader market trend is negative. On the National Stock Exchange (NSE), 1651 shares are in red and 526 shares in green. Selling pressure is also seen in midcap and smallcap stocks. The Nifty Midcap 100 index is down 591 points or 1.03 per cent at 56,520 and the Nifty Smallcap 100 index is at 18,661 points, down 167 points or 0.89 per cent. Devendra Mehata, Research Analyst at Choice Broking said, "Nifty can find support at 24,700 followed by 24,650 and 24,600. On the higher side, 24,850 can be an immediate resistance, followed by 24,900 and 25,000." On Thursday, Infosys reported a good number compared to estimates. Infosys, Asian Paints, ITC, Nestle, HCL Tech, Kotak Mahindra Bank and HDFC Bank are the top gainers in the Sensex pack. Tech Mahindra, Tata Steel, UltraTech Cement, JSW Steel and Wipro are the top losers.

Despite being halfway through the current solar cycle, Sun is starting next

New Delhi, July 19 (IANS) Even though the Sun is just halfway through its current cycle, the first rumblings of its next 11-year solar cycle have been detected in sound waves within it, according to a team of researchers. This current cycle is presently reaching its apex, or solar maximum that occurs when the Sun's magnetic field flips and its poles swap places, until mid-2025. It impacts the Sun's surface activity, with sunspots, flares, and coronal mass ejections all increasing during solar maximum. This causes an increase in electromagnetic energy heading towards Earth, making auroras more visible and at lower altitudes. The current solar cycle, known as Cycle 25, began in 2019. It is not expected to end for another six years but researchers from the University of Birmingham have spotted the first signs that the next solar cycle is beginning. They presented the findings at the Royal Astronomical Society's National Assistance Astronomy in Hull. Dr. Rachel Howe, Helioseismology Research Fellow at the University of Birmingham, and her team have detected early signs of solar cycle 26 through internal sound waves in the Sun, revealing bands of faster and slower rotation. This pattern, observed using helioseismic data from GONG, MDI, and HMI since 1995, shows faster-moving material drifting toward the Equator before each solar cycle starts.

Retail sales surge in India amid high disposable incomes, rising consumption

New Delhi, July 19 (IANS) As household consumption expenditure on goods and services surged with rising disposable incomes, the country saw a significant 5 per cent growth in retail sales in the month of June. According to a survey by the Retailers Association of India (RAI), south India led the regional growth with 7 per cent spike, followed by north and east India at 5 per cent rise, respectively, and West India showing 4 per cent rise. The footwear and apparel and clothing sectors each registered a 4 per cent growth. "With the upcoming festival season and a promising monsoon, we

anticipate further improvement in consumer sentiment and retail sales," said Kumar Rajagopalan, CEO of RAI. The report showed a robust performance across various sectors, particularly in discretionary items, boosted by end-of-season sales. According to a recent survey by the Ministry of Statistics, household consumption expenditure on goods and services is rising in both rural and urban areas. The monthly per capita household consumption in rural India jumped by over 40 per cent in 2022-23, after adjusting for inflation, compared to the corresponding figure recorded for 2011-12, according to the survey.

Luxury homes worth crores selling like hot cakes in India this year

New Delhi, July 19 (IANS) Aligned with the continuous momentum in the real estate industry, the sale of houses costing Rs 4 crore and above went up 27 per cent in the first half of this year.

According to the latest report by real estate consultant CBRE, India's luxury housing segment maintained strong sales growth, reaching total sales of around 8,500 luxury units compared to nearly 6,700 units in the same period of 2023.

Delhi-NCR, Mumbai and Hyderabad accounted for nearly 84 per cent of the total luxury housing sales across the top seven cities. While sales in Delhi-NCR surged 14 per cent to 3,300 units,

Mumbai saw a growth of 14 per cent to 2,500 units. Housing sales in Hyderabad stood at 1,300 units, up 44 per cent annually. Pune registered sales of 1,100 units, marking a 450 per cent year-on-year increase during this period, according to the report. "The luxury housing segment, particularly for properties priced at Rs 4 crore and above, is set to thrive as buyers seek homes that align with their affluent lifestyles," said Anshuman Magazine, Chairman and CEO -- India, South-East Asia; Africa at CBRE. Another report earlier this month revealed that the real estate market witnessed

higher luxury housing sales in H1 2024 due to the robust economy and growing demand for luxury lifestyles. The report from property consultant firm Knight Frank said housing sales above Rs 1 crore accounted for 41 per cent of total sales in H1 2024. This figure was 30 per cent in the same period in 2023. A total of 1,73,241 homes were sold in H1 2024, the highest sales figure in 11 years. This is an 8 per cent growth compared to the Rs 11,400 crore sales in the first half of 2023, according to the report by India Sotheby's 'International Realty and CRE

Matrix'. The primary luxury segment saw sales worth Rs 8,752 crore, the second-best half-yearly sales value in the past five years.

Forex inflows from NRIs surge 4-fold to \$2.7 bn in April-May

Mumbai. The money from Indians working overseas that come into NRI deposits of banks surged more than 4-fold to \$2.7 billion in April-May this year compared to \$0.6 billion in the same period last year, strengthening the country's foreign exchange reserves, the latest data compiled by the RBI showed. The total NRI deposits as of May have now gone up to \$154.72 billion.

The NRI deposit schemes include FCNR deposits, NRE deposits, and NRO deposits. These large inflows of foreign exchange also help to prop up the rupee. According to the RBI report, the rupee has emerged as the most stable among major foreign exchange reserves have jumped to a lifetime high of \$657.16 billion during the week ended July 5.
